

## STOCKS UP, WITH STEEL A FEATURE

John W. Gates, a Liberal Seller of Common During Heavy Trading, But the Metal Issue Holds a Good Gain.

## BROOKLYN RAPID TRANSIT ALSO A MARKET FAVORITE.

Missouri Pacific, Sugar and Erie Share Advance, While Amalgamated Copper Rises With the List—Bonds Strong.

Stocks closed strong on the Exchange today, with the volume of trading somewhat "pulsed." There were some large individual sales, but the market lacked the swing and hum of the past few weeks, the public not being so much in evidence.

Following is a general lower opening, there was a rally, in which the first were generally higher. Later prices were irregular, but toward the close values were lifted all around. London houses did a scattering business of about 50,000 shares, selling probably 25,000 shares on balance.

The continuous feature of the market was United States Steel common, the price being pushed up to 24 after a fractionally higher opening at 22 1/2, an exceptionally heavy buying. John W. Gates was the principal trader, he selling out in 100 and 1,000 share lots the 10,000 shares or so which he had previously bought from 22 1/2 to 23. Speculation turned principally to this stock based on the iron and steel trade. The preferred was also looked after, the price advancing 1 point.

The trading in Missouri Pacific was notable, it setting up more than 1 point, following an unchanged start. There was continued pressure on Union Pacific and Alchison, although they finished with slight gains.

Brooklyn Rapid Transit was the feature of the Transactions, it advancing more than 1 per cent. on good buying. The other issues in the group advanced 1 point below closing figures.

Amalgamated Copper, after holding in the neighborhood of yesterday's close throughout the greatest part of the session, advanced with the list during the final hour and closed higher.

Colorado Fuel and Iron, Tennessee Coal and Iron, American Sugar and preferred, closed from 1/2 to more than 1 per cent. higher. Under the rest of the common, the Eries finished strong.

Government bonds were unchanged, and others strong and active. The total sales of stocks were 1,171,200 shares and 31 bonds.

## ROBBERS BAFFLE BUFFALO BILL

The Cody Bank Thieves, Who Were Closely Pursued by His Posse, Again Manage to Give His Men the Slip.

CODY, Wyo., Nov. 4.—The Cody bank robbers have escaped. Members of the posse sent from here who have returned say that the timber in which the outlaws took refuge has been thoroughly beaten and no trace of the men found. The pursuit will be kept up until they are caught.

The pursuing posse consists of 1,000 men made up of the sheriffs of Cody, Montrose and Thermopolis counties and their forces, "Buffalo Bill," Iron Tail, the famous Indian tracker; sharpshooters, cowboys and mountaineers, are riding into the Bad Lands on their way to the Hole in the Wall, where the robbers who shot Cashier Frank Muddaugh last Monday have taken a stand. Less than sixty miles remains to be covered.

Hard to Run 'Em Down.

More than 100 miles of rough, mountainous country has been traversed by the trackers. Four times have the robbers and their band been surrounded, and as many times have they succeeded in eluding their pursuers. Starting with only two men the robbers now number twenty of the most daring, reckless criminals of the Northwest. They know the land through which they have travelled, and every ravine, canyon, stream and knoll is like an open map to them.

On Monday night the posse left Cody and were joined by forces from Montrose and Thermopolis. After a night of hard riding the outlaws were overtaken at Grey Bull River on Tuesday morning. There was a skirmish, but no material damage was done to either side. The outlaws got away. At the noon hour the posse came up with the robbers, at Cottonwood Creek. Here one of them was hit, but he was not seriously wounded. He rode away with his friends.

Again Gave the Slip.

On Wednesday the bandits were again surrounded and so sure were their pursuers of forcing a surrender that a formal demand was made then and there. The posse, alert on their arms and when they awoke the next morning all that was found of the outlaws was the slumbering camp fire. The chase then was directed along the Kirby creek to the Bad Lands.

It is believed that the forces of the outlaws had been augmented by Harvey Logan, who is wanted for the murder of Joe Hazen in 1919, when the Union Pacific train was held up. A reward of \$10,000 has been placed on his head. This makes an aggregate of \$20,000 reward for the capture of the robbers now taking up what is believed to be their final stand.

## BEARS HAMMER WHEAT.

They Looked for Stop Orders on Lower Cables and Larger Receipts.

Lower cables from the Liverpool market, coupled with larger receipts from the Northwest and bear pressure, were responsible for a decline of 1-2 of a cent in the local wheat market to-day. Trading was quiet. Shortly after the opening prices declined 1-8 of a cent further, and the bears hammered the market, expecting to catch stop orders. Corn was well sustained, Liverpool cables being favorable.

New York's opening prices were: Wheat—May, 113; December, 117. Chicago's opening prices were: Wheat—May, 117 1/2 to 118 1/2; July, 98 1/2; December, 112 1/2 to 113. Corn—May, 45 1/2 to 46 1/2; July, 45 1/2; December, 45 1/2 to 46 1/2.

New York's closing prices were: Wheat—May, 112 1/2; July, 101 1/2; December, 117. Corn—May, 51; December, 51 1/2 asked.

Chicago's closing prices were: Wheat—December, 117 1/2 to 118 1/2; July, 98 1/2; December, 112 1/2 to 113. Corn—May, 45 1/2 to 46 1/2; July, 45 1/2; December, 45 1/2 to 46 1/2.

## SHOE POLITICS

SHOE election takes place every year, and something like 2,000,000 votes are annually cast for Regals. Six Regal shoes every minute of every week day are chosen in Greater New York alone.

Each season Regal Shoes run on the same old tried and proven Regal Tannery-to-Wearer platform.

Read these planks and you'll see why they bring victory:

**The Tariff Clause:** Styles imported free of duty and never later than one month after they are approved in London, Paris and Vienna.

**The Tax Clause:** Only one profit, the manufacturer's—all others eliminated.

**The Money Clause:** Regal prices everywhere and always \$3.50.

**The Labor Clause:** Honest skilled Regal workmen working only with the best of shoe materials—famous King Calf uppers and old-fashioned oak-tanned soles, all the product of Regal Tanneries.

Here is one of the 75 new Regal styles which will see victory this fall. Nothing more correct, serviceable and comfortable for general fall and early winter wear can be found anywhere.

**The "JAP"**

The exact copy of a style which cannot be found this fall except in Regal and in the high price custom-made class. Handsome, smart, "dual" toe, "saddle" sole, and tested and military heel. Finest quality of wood calf leather. Last throughout with light tan leather. Made in 999 QUARTER SIZES, lasting a perfect fit for every foot.

Send for Style Book. Mail orders promptly filled.

Sold direct from tannery to consumer. The largest retail shoe business in the world. 60 stores in principal cities from London to San Francisco.

## COTTON IN GOOD DEMAND.

Prices Advance in Broadened Trading, with the Public Buying.

After opening lower to-day on disappointing cables the cotton market immediately rallied, prices recovering whatever losses they had sustained. January closed the best mark and the entire list advanced well beyond yesterday's closing prices. Trade broadened in a manner strongly suggestive of increasing public interest.

The opening prices were: November, 9.65 to 9.75; December, 9.67 to 9.88; January, 9.66 to 9.85; February, 10.00 bid; March, 10.00 to 10.10; April, 10.10 bid; May, 10.10 to 10.15; June, 10.17 offered; July, 10.21 to 10.22.

The late prices were: December, 9.77; January, 9.80; March, 9.86; May, 10.00.

## Where Millions Are Made.

Interesting Letter That May Mean Much to Residents of New York.

Probably there is not a reader of The World who has not heard of the fortunes made in the Beaumont oil fields. While the tales of fortunes quickly made are interesting, they are really not half as valuable to our readers as the following letter from L. K. Preston, president of the Beaumont-Preston Drug Company of Beaumont, one of the largest wholesale and retail houses in Texas.

Mr. Preston writes: "Inclosed you will find a letter that came to me unsolicited from J. C. Reeves, 770 Pearl St. I have known Mr. Reeves for several years. He is a reliable man and very happy over his fortune."

"About four years ago," writes Mr. Reeves, "I lost the hearing in my right ear, and about three or four months ago my left ear became almost as bad. In fact, I was so bad that people had to shout at me to make me hear. I had about given up in despair all hopes of ever recovering my hearing when I saw that you recommended Hyomel. I used two bottles and can now hear my watch tick with either ear, and my hearing is now all right. This deafness must have been caused from catarrh, for it is now cured. Hyomel certainly does what you claim for it."

Hyomel has made many cures of catarrh, and in combination with Hyomel balm, of catarrhal deafness in New York and nearby towns. Hegeman & Co. give their personal guarantee to refund the money should it not give quick relief. The complete Hyomel outfit costs but one dollar, while extra bottles can be obtained for fifty cents.

"Hegeman & Co., The Corporation, 200 Broadway and all branches. Mail orders filled promptly."

## The Jacoby Jewelry

Rent, salaries and fixtures play an important part in the figuring of selling prices.

I don't pay Broadway rent and have no elaborate establishment to maintain, and I buy my stocks as cheaply as the big Broadway and Fifth Ave. Jewellers.

The result is self-evident. With the same cost and far less expense to be covered my selling prices must be far lower unless I wish to exact an exorbitant profit—which I do not.

I have one of the most unique establishments in New York. You may always be sure of a pleasant visit and an inspection of some of the most beautiful novelties and works of art in jewelry ever brought to this country.

Many pieces I am showing cannot be found in any other shop in this country—direct personal importations of my own, and in every instance the price is far less than would be expected.

Open evenings.

## The Jacoby Jewelry

175 6th Ave., bet. 12th & 13th Sts.

## ARE YOU RUN DOWN?

Social and business conditions among the American people are such as to constantly enlarge the general debility class.

There are many sufferers, which in cludes those who invariably reply to health queries "that they are all run down."

To meet the needs of this growing army of invalids

**MUNYON'S General Debility Cure**

was prepared from prescriptions furnished by the most eminent physicians in the world. It has never failed to give immediate relief, and to build up and make strong and well sufferers of this character. Try it yourself if you are in need, or if not, it would be a human act to recommend it to some sufferer that you may know.

Frequently the liver is responsible for the despondency and bad feeling which comes under the head of general debility. So that you can make assurance of cure doubly sure by taking

**MUNYON'S LIVER CURE**

in alternation with the General Debility Cure. A few days—even one day's trial—of these remedies will convince you of their great worth in the cure of the ailments named.

Munyon's Remedies—a separate cure for each disease—for sale everywhere.

Munyon's Witch Hazel Soap and other Toilet Preparations the finest made.

## Atterbury System

### The Clothes of Taste

THE student of clothes is aware that the ATTERBURY SYSTEM is the only method ever devised that successfully produces hand-tailored clothing that is ready-to-wear.

Its product is necessarily limited. So far as quantity is concerned, we cannot compete with the manufacturer. When quality is considered, he, of course, cannot compete with us.

The manufacturer makes his clothes by machinery. We make ours by hand—even to the smallest detail. His clothes are produced by the contract system and are put together anywhere and everywhere. Ours are made on our own bright, clean, sanitary premises by tailors who stand high in the craft—men whom we employ on salaries, who are devoted to our interests and who have a natural pride in their work.

Only under such conditions can a gentleman's clothes be produced. The ancient writer whose brains created "A long felt want" and "This is as it should be," lived before the ATTERBURY SYSTEM was devised, but we may successfully apply these creatures of his fancy to the artistic clothes we are producing to-day.
